

# Welcome to Eamali... Your new pathway to an exciting & successful career

## Eamali is Arabic for 'My Career' ...

Having spent 20+ yrs. in Education and working with thousands of students who are at the beginning of their life & career journey, I feel that taking part in a formal 'work experience' is a rite of passage.

I remember my own two weeks in a hotel, working 1st week in the restaurant and 2nd as a chamber maid ! It was the start of my own journey into hotels, which lasted for 8 years as a chef in a variety of 5\* and Michelin rated hotels and restaurants. I even ran my own restaurant. This is the impact of work experience ...

A positive outcome of a 'work experience placement' is that pupils have a better appreciation of a variety of careers or occupations which will enable them to make more informed future career choices.

Eamali is an interactive learning pathway to support Young Adults at the start of their exciting career journey.

Eamali allows each pupil to have their **own portal** which contains links to an online resume preparation area, work experience logbook, learning hub\*, and access to the podcast\*\*  
#notjustmakingthetea! Allowing students to build their own portfolio which can be accessed 'anytime, anywhere, any device'.

I look forward to hearing from you soon.
